WHY LABORsuite?

INTEGRATED TECHNOLOGY

Through its HCM software-as-a-service platform, provides an integrated product suite to manage employees and processes, while efficiently enabling employers to run companies more productively and in line with Federal and State Wage-Hour laws.

ONE STOP SHOP

When you partner with us and take advantage of LABORsuite, you will have all the necessary tools and services needed to manage your company and workforce. Nowhere else will you find such a powerful combination of workforce management solutions that help your company control labor costs and keep compliant with all the employer related responsibilities.

GREATER COST SAVINGS

Eliminate large, up-front worker's compensation deposits, stay clear of wage and hour violations, rid yourself of complicated measurement periods and reporting for ACA, and improve your cash flow management. With our seamless payroll integration, businesses are able to remove the guesswork of calculating labor cost with a completely bundled offering.

EMPLOYEE MANAGEMENT

From applicant tracking, to background checks, to onboarding, to managing mobile workers in the field, LABORsuite offers a full spectrum of management tools to monitor and document your workforce's behavior. Never, has it been so easy to stay in line with mandated State and Federal Wage-Hour laws regarding time worked, meal periods and rest breaks of employees.

CUSTOMER SERVICE EXPERIENCE

When partnering with California Time and Labor Company you will experience live service representatives and timely responses to any service needs your company may need. Our certified professionals along with our state of the art cloud-based technology puts your administration responsibilities on auto pilot.
